***Dear Parent***

***The Holiday Homework is designed to teach children to work independently and to improve their basic academic skills such as reading, writing, learning spellings and building vocabulary. This summer break is also a welcome break for you and your kids. So, let's cheer for the 3R's – Rejuvenation, Relaxation and Rebonding. We have prepared their homework in a way that makes learning fun and holidays even more enjoyable. Encourage children to have loads of fun, play indoor games, meet relatives, friends, cousins and spend time with grandparents. Spend time with them and tell them to share their secrets with you. Kindly encourage the spirit of scientific enquiry and foster awareness about nature.***
